In planning this Bearcat, the staff has endeavored to capture the highlights of 1959-60 school year.

It is our hope that as you turn its pages you may, in memory, live again the happy school days spent here.

DEDICATION

MRS. MAUD GOODMAN

Monuments of stone may crumble into dust, but the influence of a dedicated teacher and friend lives on in the succeeding generations. Mrs. Goodman, educator, counselor, mediator, and friend will remain in the hearts of those she has influenced throughout the years.

MISS LOIS WANTLAND

"Train up a child in the way he should go and when he is old he will not depart from it." Prov. 22.

Through her teaching Miss Wantland has given herself without reservation to equipping children to find themselves in a complex world. Her methods are as modern as tomorrow, but her influence is as lasting as time itself.

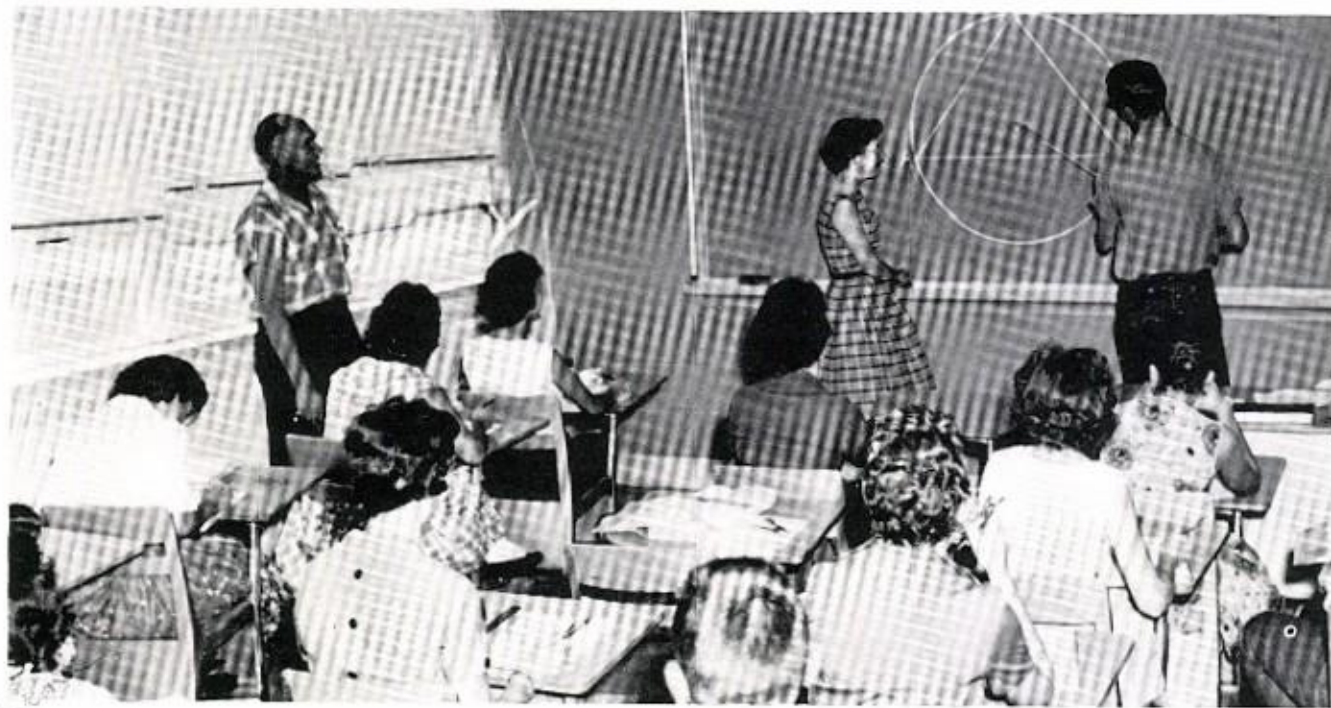

In Biology plant and animal life are studied. This course is a prerequisite in medical technology.

Mr. Bradley

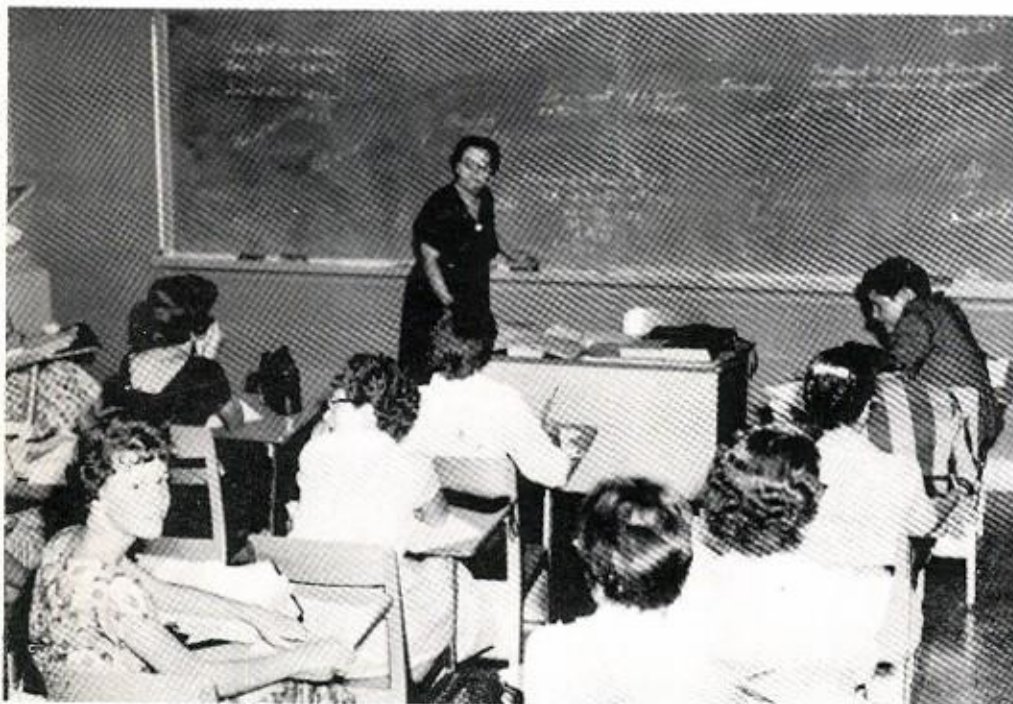

Physics gives basic training for advanced study in a scientific field. Chemistry and physics are taught alternate years here in Henrietta.

Mr. Pope

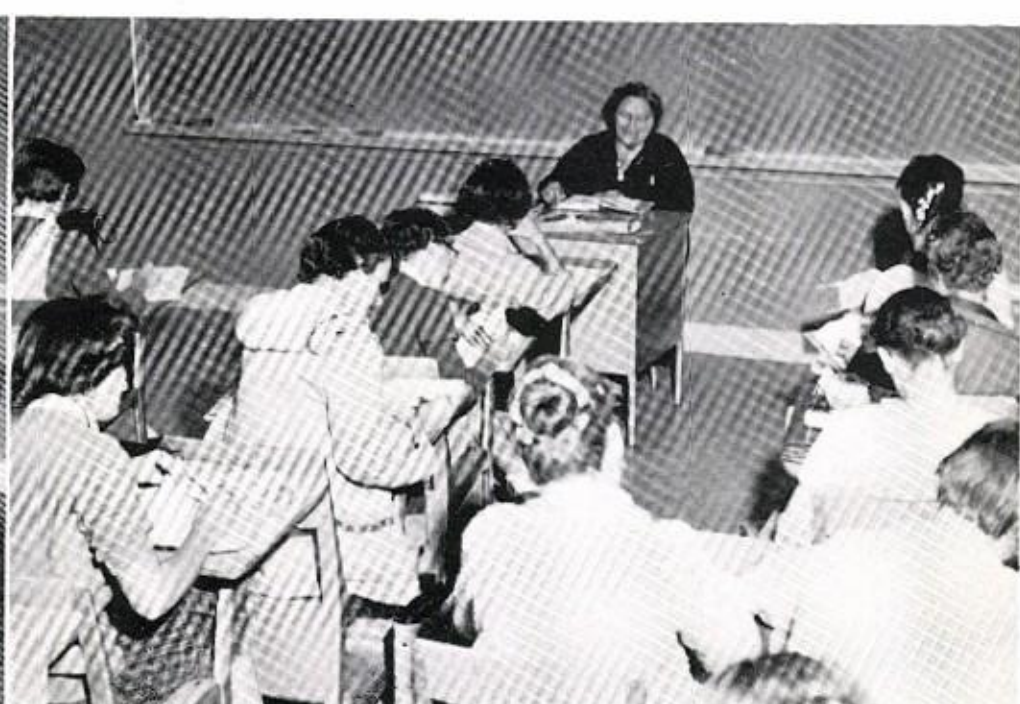

Plane Geometry is one of three advanced math courses taught in our school. These pupils are explaining a problem in Plane Geometry.

Mr. Massey

All of the students are required to take Algebra I. In this basic math course the pupils are constantly reminded that reasoning is very essential.

Mrs. Pope

Our math courses are Algebra I, Algebra II, Plane Geometry, Solid Geometry, and Trigonometry.

Mrs. Skinner

English II studies literature the first semester and grammar the second semester. As in all English classes many themes and essays are written.

Mrs. Nutter

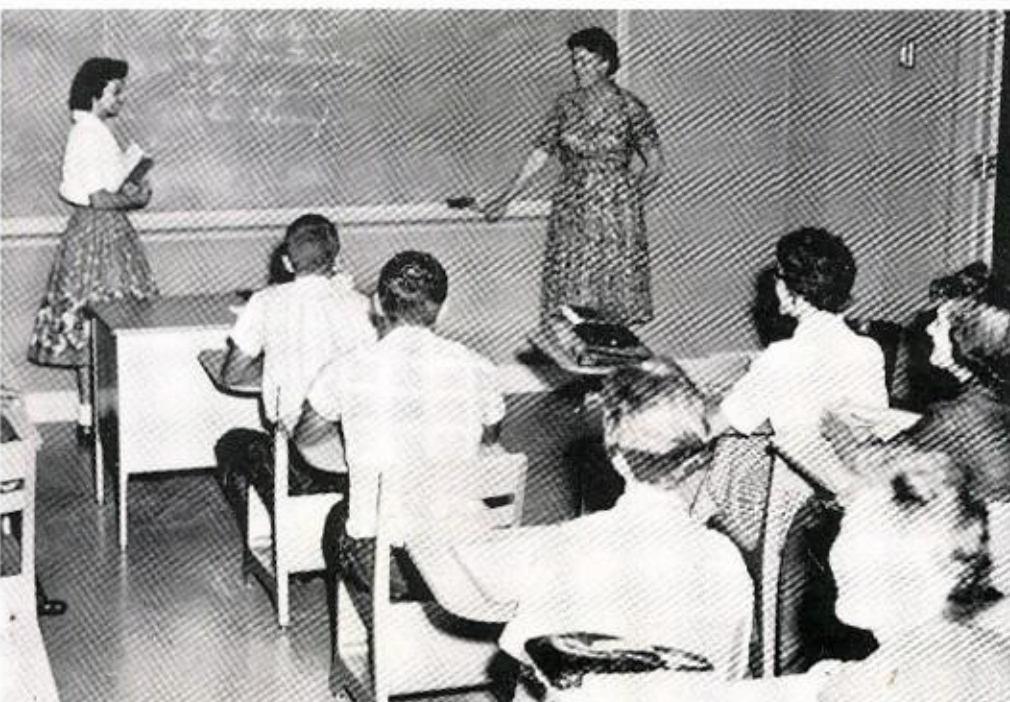

English I gives the student a base for all the other English courses offered. Four years of English are required for graduation.

Mrs. McManes

History is a major course in HHS. In this government class they are instructed in the operation of their nation's business; also studying the operation of other nation's businesses.

Mrs. Schick

In the Speech Class much time is spent in learning public speaking. This class presents plays in assembly programs which we all enjoy.

Mrs. Schwend

Typing I Class practices speed drills and learns the fundamentals of typing. Other business subjects are Typing II, Bookkeeping, and Shorthand.

Miss Hoeldtke

This is a Freshman Class in vocational agriculture. Three years of agriculture are taught and one class in shop is also taught.

Mr. Woods

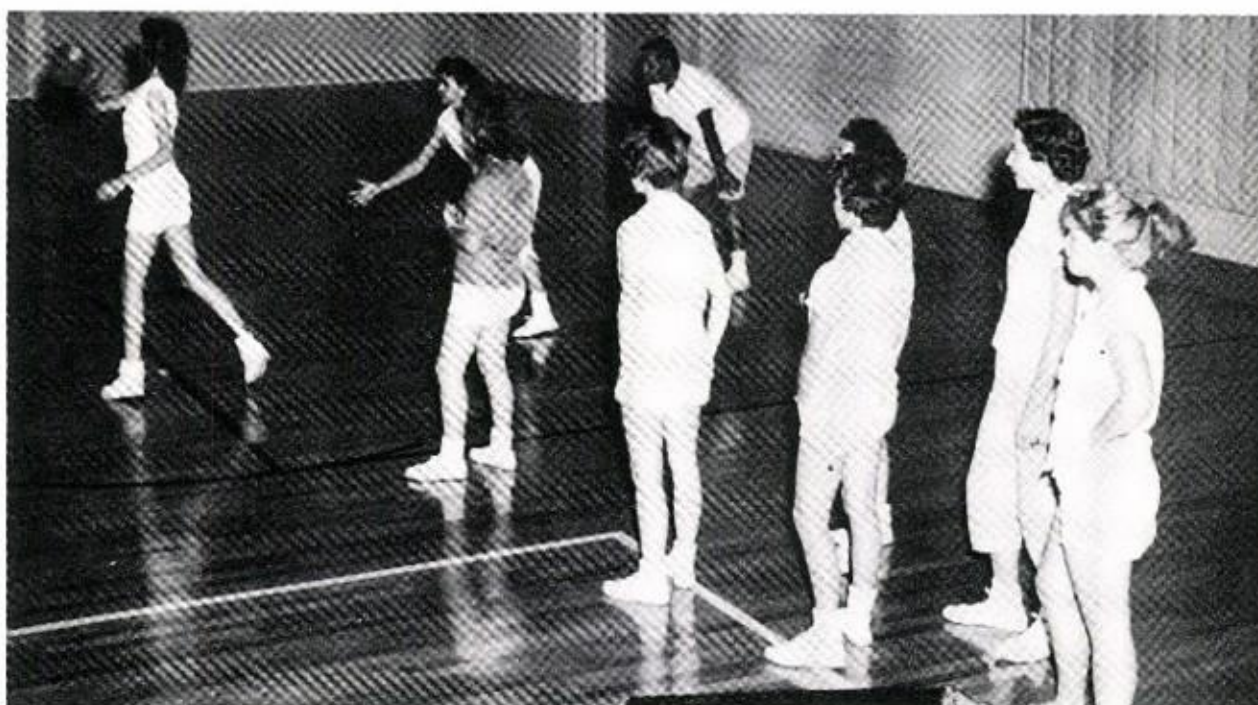

Three years of homemaking are offered in HHS. Cooking, sewing, and other basic skills are taught.

Mrs. Norris

The band furnishes much pleasure and personal satisfaction to each member and entertains the students on many occasions.

Mr. Racke

Physical Education is required by all students in HHS. This girls' physical education class is demonstrating some basketball techniques.

Mr. Coonwoop

ADMINISTRATION

BOARD OF EDUCATION

The students of Henrietta High School wish to express their appreciation to the board for their untiring efforts to make this a better school. For their long hours of duty they are really the "unsung heroes."

OUR SUPERINTENDENT

Henrietta School is fortunate in having Mr. Roper as its superintendent. He has proved himself in every way to be a capable worker with the student body and the faculty. He has continually made himself available to everyone desiring to confer with him. His tireless energy has always been directed to improving Henrietta Schools. To each of us he is more than an administrator--he is our friend.

OUR PRINCIPAL

It would be impossible for us to enumerate the many things Mr. Bradley has done for the students of Henrietta High School during his two years as principal. His guidance has set us on the right path, and the ideals and principles which he has impressed upon us will stay with us throughout our life. For his friendly concern and considerate aid we return our loyalty and devotion.
